

## Flowseal EPW (Wall Sealer)

### Standard Colour Chart

The applied colours may differ slightly from the examples shown above. Contact our customer services for a true colour sample or a special colour match.

### Description

Flowseal EPW is a pigmented, water-based epoxy, hygienic wall sealer with a satin finish.

### Typical Uses

Flowseal EPW is suitable for sealing walls in a variety of locations such as cleanrooms and hospitals.

### Benefits

- Hygienic
- Vapour permeable; allows substrate to breath
- Can be applied to damp substrates
- Enhances appearance of working environment
- Solvent free; low odour
- Easy to clean and maintain

### Project References

CNAC Dragonair Building; Hong Kong Science Park; B.Foods; Thaifoods International; Bellings; SMIC Shanghai; Glaxo Wellcome Pharmaceutical; KFC Holdings (M) Bhd.

### System Design

## Model Specification

Product: Flowseal EPW  
Finish: Satin  
Thickness: 0.20 mm Dry Film Thickness (3 coats)  
Colour: \_\_\_\_\_  
Manufacturer: Flowcrete India Pvt Ltd  
Telephone: Customer Service - +91 44 4202 9831  
Preparatory work and application in accordance with manufacturer's instructions.

## Substrate Requirements

A smooth, dense substrate such as finishing plasters or similar is recommended to ensure the best finish is achieved.

## Products Included in this System

Flowseal EPW  
For actual coverage rates, refer to the appropriate project specification.

Detailed application instructions are available upon request.

## Installation Service

The installation should be carried out by a Flowcrete approved applicator with a documented quality assurance scheme. Obtain details of our approved contractors by contacting our customer service team or enquiring via our web site at [www.flowcrete.in](http://www.flowcrete.in).

## Environmental Considerations

The finished system is assessed as non-hazardous to health and the environment. The long service life and seamless surface reduce the need for repairs, maintenance and cleaning. Environmental and health considerations are controlled during the manufacture and application of the products by Flowcrete staff and fully trained and experienced contractors.

## Focus on the Floorzone

Flowcrete India Pvt Ltd is a division of the Flowcrete Group, world leaders in specialist industrial and commercial flooring. Systems available include: underfloor heating systems, floor screeds, surface damp proof membranes, decorative floor finishes, seamless terrazzo, car park deck waterproofing and corrosion protection systems... to name just a few. Our corporate objective is to satisfy your flooring needs.

The figures that follow are typical properties achieved in laboratory tests at 20 °C and at 50% Relative Humidity.

|                        |  |
|------------------------|--|
| Fire Resistance        | BS476:Part 7:1987<br><b>Class 1</b> Surface spread of flame      |
| Temperature Resistance | <b>Tolerant up to 60 °C</b>                                      |
| Vapour Permeability    | ASTM:<br>E96:90-20g/ m <sup>2</sup> /mm /24 hr                   |
| Chemical Resistance    | Contact Technical Department                                     |
| Bond Strength          | Greater than cohesive strength of substrate. <b>&gt;1.5 MPa.</b> |

## Speed of Cure

|                    | 10°C    | 20°C   | 30°C   |
|--------------------|---------|--------|--------|
| Light traffic      | 24 hrs  | 12 hrs | 8 hrs  |
| Full traffic       | 36 hrs  | 24 hrs | 16 hrs |
| Full chemical cure | 14 days | 7days  | 6days  |

**Low relative humidity and good ventilation are pre-requisites to achieving the above drying times.**

## Aftercare - Cleaning and Maintenance

Clean regularly using a single or double headed rotary scrubber drier in conjunction with a mildly alkaline detergent.

## Important Note

Flowcrete's products are guaranteed against defective materials and manufacture and are sold subject to its standard Terms and Conditions of Sale, copies of which can be obtained on request.
